## PROFILE

Passionate Frontend Developer with hands-on experience in building responsive, interactive web applications using React.js, Redux Toolkit, and Tailwind CSS. Recently completed an internship at TxLabz, where I contributed to real-world projects and collaborated in an agile environment. Focused on clean UI, efficient state management, and reusable components. Now seeking a full-time role to further grow and make impactful contributions.

## WORK EXPERIENCE

- Frontend Developer Intern - TxLabz** Feb 2025 - June 2025
- Built responsive React web interfaces with clean UI, reusable components, and smooth API integration. Focused on performance, scalability, and modern design.
- Key Tasks:
- Developed components using React, Tailwind CSS, and Redux Toolkit
  - Integrated APIs with Axios for dynamic data rendering
  - Ensured full mobile responsiveness and cross-browser support
  - Optimized code for reusability and maintainability
  - Collaborated via Git and participated in Agile sprints

## PROJECTS

- ◆ **Portfolio Website**
- Personal Portfolio - [Live Demo](#) : mananaslamdev.vercel.app
- Developed a personal developer portfolio using React and Tailwind CSS.
  - Showcases skills, resume, and live project demos.
  - Fully responsive with minimal and modern UI.
- ◆ **Zayrah - E-Commerce Store**
- Zayrah By Manan - [Live Demo](#) : zayrahbymanan.vercel.app
- Created a women's fashion e-commerce frontend with React and Redux Toolkit.
  - Features include product listing, category filters, and cart functionality.
  - Used Axios to fetch mock product data and managed UI state efficiently.

## EDUCATION
